Due to the decreasing number of COVID patients we are caring for, we are changing our Visitor Guidelines.

Visitors must comply with PPE requirements (this includes mandatory masks on campus. Other measures may be required upon arrival) and might be excluded from having visitation privileges if they fail to pass the screening process.

To ensure the safety of our visitors, patients and staff, the following changes are being made:

**Effective Friday, October 8, 2021**
COVID Positive Patients: **One (1) Visitor Per Day Per Patient**
This policy will replace all other Visitor Guidelines (last updated 8.16.21) until further notice.

**Effective Friday, October 8, 2021:** Outpatients Allowed One (1) Visitor Per Day Per Patient

Due to facility space limitations and our ability to manage both social distancing and the OR-OSHA cleaning protocols for public areas, patients coming for outpatient services – day surgery, imaging, lab, heart center procedures, wound care, infusion services, pulmonary function – will allow one (1) visitor, unless the patient has a disability that requires assistance. *Reference SB1606*

**Effective Friday, October 8, 2021:** Inpatients Hospital-Wide Allowed One (1) Visitor Per Day Per Patient

One visitor per patient per day is allowed in all units at this time, during visitation hours of 2 p.m. to 6 p.m. with some exceptions. The Family BirthPlace patients will still have one support person allowed during labor, and 1 visitor during visitation hours of 2 p.m. to 6 p.m. Children under 12 are not permitted in the unit at this time.
